

Author index

Akan, G.T., 171
Arditi, D., 171
Benes, J., 25
Bowen, P.A., 199
Cusack, M.M., 91, 183
Diepeveen, W.J., 25
Edwards, P.J., 199
Flanagan, R., 145
Fuller, S.K., 43
Gray, C., 121
Gurdamar, S., 171
Hague, D.J., 163
Hillebrandt, P.M., 249
Ireland, V., 59
Lansley, P., 1
Little, J., 121
Marshall, H.E., 105
Meikle, J.L., 249
Nahapiet, H., 217
Nahapiet, J., 217
Norman, G., 145
Ofori, G., 33
Ruegg, R.T., 43
Sozen, Z., 233
White, A., 15

Subject index

- Agency, control, co-ordination, continuous development, 33
- Artificial intelligence, expert systems, price forecasting, cost modelling, probabilistic simulation, 199
- Benefit-cost analysis, building economics, discounted payback, economic analysis, payback, 105
- Buildability, variations, contingency theory, co-ordination, cost, time, quality, building process, 59
- Building, contract management, organization, 217
- Building economics, discounted payback, economic analysis, payback, benefit-cost analysis, 105
- Building process, buildability, variations, contingency theory, co-ordination, cost, time, quality, 59
- Business growth, controlled regression, management of construction firms, corporate planning, flexibility, 25
- Case studies, organization, research, consultancy, dissemination, management development, simulation, 1
- Combinational mathematics, Critical Path Method, construction claims, construction delay, prolongation costs, 15
- Competitive tendering, resource constraints, sealed bid auction, 145
- Computing, expert systems, construction management, cranes, estimating, 121
- Construction, labour, materials, resource, planning, 249
- Construction claims, construction delay, prolongation costs, combinational mathematics, Critical Path Method, 15
- Construction delay, prolongation costs, combinational mathematics, Critical Path Method, construction claims, 15
- Construction delays, public projects, developing countries, 171
- Construction management, cranes, estimating, computing, expert systems, 121
- Consultancy, dissemination, management development, simulation, case studies, organization, research, 1
- Contingency theory, co-ordination, cost, time, quality, building process, buildability, variations, 59
- Continuous development, agency, control, co-ordination, 33
- Contract management, organization, building, 217
- Control, co-ordination, continuous development, agency, 33
- Control, time-cost optimization, precedence networks, ILP, 91
- Controlled regression, management of construction firms, corporate planning, flexibility, business growth, 25
- Co-ordination, continuous development, agency, control, 33
- Co-ordination, cost, time, quality, building process, buildability, variations, contingency theory, 59
- Corporate planning, flexibility, business growth, controlled regression, management of construction firms, 25
- Cost, time, quality, building process, buildability, variations, contingency theory, co-ordination, 59

- Cost modelling, probabilistic simulation, artificial intelligence, expert systems, price forecasting, 199
- Cranes, estimating, computing, expert systems, construction management, 121
- Critical Path Method, construction claims, construction delay, prolongation costs, combinational mathematics, 15
- Developing countries, construction delays, public projects, 171
- Developing countries, organizational structure, technology, 233
- Discounted payback, economic analysis, payback, benefit-cost analysis, building economics, 105
- Dissemination, management development, simulation, case studies, organization, research, consultancy, 1
- Economic analysis, fire protection, life-cycle costing, net benefit analysis, risk benefit analysis, sprinkler systems, 43
- Economic analysis, payback, benefit-cost analysis, building economics, discounted payback, 105
- Estimating, computing, expert systems, construction management, cranes, 121
- Expert systems, construction management, cranes, estimating, computing, 121
- Expert systems, price forecasting, cost modelling, probabilistic simulation, artificial intelligence, 199
- Fire protection, life-cycle costing, net benefit analysis, risk-benefit analysis, sprinkler systems, economic analysis, 43
- Flexibility, business growth, controlled regression, management of construction firms, corporate planning, 25
- Heuristic models, microcomputers, planning, time-cost, 183
- Incentives, motivation, organization, productivity, 163
- ILP, control, time-cost optimization, precedence networks, 91
- Labour, materials, resource, planning, construction, 249
- Life-cycle, costing, net benefit analysis, risk-benefit analysis, sprinkler systems, economic analysis, fire protection, 43
- Management development, simulation, case studies, organization, research, consultancy, dissemination, 1
- Management of construction firms, corporate planning, flexibility, business growth, controlled regression, 25
- Materials, resource, planning, construction, labour, 249
- Microcomputers, planning, time-cost, heuristic models, 183
- Motivation, organization, productivity, incentives, 163
- Net benefit analysis, risk-benefit analysis, sprinkler systems, economic analysis, fire protection, life-cycle costing, 43
- Organization, research, consultancy, dissemination, management development, simulation, case studies, 1
- Organization, productivity, incentives, motivation, 163
- Organization, building, contract management, 217
- Organizational structure, size, technology, developing countries, 233
- Payback, benefit-cost analysis, building economics, discounted payback, economic analysis, 105
- Planning, time-cost, heuristic models, microcomputers, 183

- Planning, construction, labour, materials, resource, 249
- Precedence networks, ILP, control, time-cost optimization, 91
- Price forecasting, cost modelling, probabilistic simulation, artificial intelligence, expert systems, 199
- Probabilistic simulation, artificial intelligence, expert systems, price forecasting, cost modelling, 199
- Productivity, incentives, motivation, organization, 163
- Prolongation costs, combinational mathematics, Critical Path Method, construction claims, construction delay, 15
- Public projects, developing countries, construction delays, 171
- Research, consultancy, dissemination, management development, simulation, case studies, organization, 1
- Resource, planning, construction, labour, materials, 249
- Resource constraints, sealed bid auction, competitive tendering, 145
- Risk-benefit analysis, sprinkler systems, economic analysis, fire protection, life-cycle costing, net benefit analysis, 43
- Sealed bid auction, competitive tendering, resource constraints, 145
- Simulation, case studies, organization, research, consultancy, dissemination, management development, 1
- Size, technology, developing countries, organizational structure, 233
- Sprinkler systems, economic analysis, fire protection, life-cycle costing, net benefit analysis, risk-benefit analysis, 43
- Technology, developing countries, organizational structure, size, 233
- Time, quality, building process, buildability variation, contingency theory, co-ordination, cost, 59
- Time-cost, heuristic models, microcomputers, planning, 183
- Time-cost optimization, precedence networks, ILP, control, 91
- Quality, building process, buildability, variations, contingency theory, co-ordination, cost, time, 59
- Variations, contingency theory, co-ordination, cost, time, quality, building process, buildability, 59
